

### PP-500 / PP-1000 / PP-2010 / PP-2800 / PP-4800 PROFESSIONAL POWER AMPLIFIER

Bag End is proud to present the all new PP-Series (Precision Power Series) Professional Power Amplifiers, featuring a new stylish design and dual-channel power amplification. Advanced circuitry, exceptional performance and long-term reliability are hallmarks of the PP-Series. To suit needs of today's demanding systems, the PP-Series comes in five different high powered models: PP-500; PP-1000; PP-2010; PP-2800; PP-4800.

Special features include XLR inputs, Speakon terminal power output interface, as well as peak and signal real-time status display for each channel. Paired up with a high performance cooling system, the PP-Series Professional Power Amplifiers is a clear choice for the most demanding applications.
