- 2 - Top plates
- 1 - Bottom strap
- 10 - 5/16" Bolts
- 2 - 1/2" Bolts
- 2 - Lock nuts
- 1 - Eye bolt with nut

The CRYSTAL F2 Rigging system allows for easy assembly of multiple CRYSTAL2-I or OPAL2-I loudspeakers to be joined together and flown as a single array. The system is modular and bolts any number of cabinets together with a steel top plate and steel straps on the bottom. Typical arrays are 2 to 4 cabinets wide. The system keeps the cabinets tightly arrayed making a well behaved flying system.

Multiple points allow for anchor shackles to be placed at different centers of gravity to accommodate multiple vertical angles.

For use with the OPAL2 and CRYSTAL2 speakers.
